

Who's there? A brand new website to tackle doorstep crime!

Doorstep Crime...

includes distraction burglary, bogus officials and rogue trader crimes. Criminals involved in these types of crimes usually cold call at people's homes, and use a variety of tricks to steal as much money as possible.

We know that these criminals will target older or vulnerable people wherever possible, although anyone can become a victim of a doorstep criminal.

That's why we've launched a new website to provide advice, information, web-links and resources to help everyone in Greater Manchester prevent doorstep crime. Whether you are

a member of the public, or work within the police, community safety, adult services or the voluntary sector, you will find useful resources to help you join the fight against these callous criminals.
